

**SEEING
WHAT
OTHERS**

SEE AN ON GOING EXPERIENTIAL

SUNLIGHT WORKSHOP

Saturday, September 22 10-3

This is a meeting mostly about process.....a continuation of the series of meetings we have had about how we communicate and problem solve. We have mostly been speaking philosophically or theoretically about process. This meeting we are using the topic of tree management to exercise our theories and philosophies.

Some points to reflect on that have arisen in the tree survey:

Who is going to be financially responsible for decisions made.

The importance of maintaining respectful and productive communication.

What are you seeing?
